EDUCATION

Obafemi Awolowo University

Programme: Bachelor of Science, Mechanical Engineering

Expected Nov 2026

Academic Standing: First Class

Relevant Courses: Vector, Elementary Mathematics I & II, Use of English, Computer Programming I, Mathematical Methods I & II, Computer Technology, Engineering Analysis I & II.

PROJECTS / ACHIEVEMENTS / AWARDS

- Group Project on Bench-Scale Dialysis Prototype Design & Simulation: Designed and developed a bench-scale dialysis prototype to simulate actual hemodialysis processes. Executed Computational Fluid Dynamics (CFD) modeling to analyze and optimize fluid flow parameters. Feb 2026
- Project on SIEM System Implementation: Built a Security Information and Event Management (SIEM) system utilizing the ELK Stack (Elasticsearch, Logstash, and Kibana) to detect, monitor, and respond to security incidents through comprehensive log analysis. Jan 2025
- Project on Firewall Configuration: Set up and configured a network firewall on an Ubuntu system utilizing UFW (Uncomplicated Firewall) to manage access and protect network infrastructure from unauthorized threats. Aug 2025
- Project on Organizational Risk Assessment: Conducted a comprehensive risk assessment to identify, evaluate, and develop mitigation strategies for technical, physical, and human risks to information assets. Jan 2026
- Awarded MTN Scholarship Award: Recognized among the top 500 students nationwide. Oct 2024
- Awarded Joseph Adekunle Adegbite Foundation Essay prize: Authored a winning essay on the Nigerian economy that was selected by the foundation and published nationally in Vanguard News. Nov 2024
- Awarded SOHCAHTOA Scholarship Award: Recognized among the top 100 students nationwide. Nov 2024
- Cybersecurity Month Awareness Award: Awarded by Chevron. Sep 2024
- Junior Cybersecurity Analyst Career Path by CISCO Networking Academy. Sep 2024
- Network Defense by CISCO Networking Academy. Sep 2024
- Endpoint Security by CISCO Networking Academy. Aug 2024
- Cyber Threat Management by CISCO Networking Academy. Sep 2024
- Network Support and Security by CISCO Networking Academy. Sep 2024
- IoT (Internet of Things) Wireless & Cloud Computing Emerging Technologies by Coursera. Jun 2025
- Creativity, Innovation and Transformation by Coursera. May 2025
- Getting Started with Microsoft Office 365 by Coursera. Jun 2025

WORK EXPERIENCE

Part-time Office Assistant, Easyware Boutique, Nigeria

Feb 2022 – Present

- Managed procurement, inventory, and direct-to-consumer sales.
- Executed end-to-end supply chain logistics, demonstrating practical experience in micro-trade, customer

relations, and business administration.

Facility Engineering / Major Capital Projects Internship, Chevron Nigeria Limited

Aug 2024 – Nov 2024

- Completed training on cybersecurity, data privacy, and operational excellence.
- Worked with multi-disciplinary teams on complex projects & research and participated in field visits and hands-on operational activities.

Service Advisor Internship, Toyota Nigeria Limited

May 2025 – Nov 2025

- Supported workshop technicians in performing periodic maintenance and repairs on vehicles.
- Received customers and their vehicles, documented details, and maintained accurate service records using Microsoft Excel.

LEADERSHIP EXPERIENCE

Campus Ambassador, Solve Education!

Feb 2021 – Nov 2023

- Acted as a liaison between the foundation and the student body, promoting academic excellence and STEM initiatives.
- Handled organizational data and maintained accurate records to track student engagement and program metrics.

Campus Ambassador, Cowrywise

Mar 2026 – Present

- Represented the fintech platform, driving financial literacy and wealth management initiatives among the student demographic.
- Facilitated user acquisition and promoted digital investment products.

Membership Onboarding Lead, Society of Petroleum Engineers International (SPE)

Jun 2022 – Present

- Facilitated the integration of new members into the chapter by streamlining orientation and registration processes using Microsoft Excel.
- Participated in technical seminars, workshops, and conferences to stay updated on the latest industry trends and technologies.

Student Member, The Nigerian Society of Engineers (NSE)

Nov 2024 – Present

- Participated in regional meetings, technical seminars, and professional workshops to maintain alignment with national engineering standards and industry best practices.

VOLUNTEER ACTIVITIES

- Directed grassroots youth empowerment and climate action programs for DACTION NGO Initiatives.

Sep 2025

- Currently completing formal training on UN Armament and Disarmament.

Feb 2026 – Present

SKILLS AND INTERESTS

Computer Skills - ELK Stack (Elasticsearch, Logstash, Kibana), Security Log Collection & Analysis, Threat Detection & Monitoring, Incident Response Tracking, Network Defense & Architecture, Firewall Configuration & Management (UFW), Endpoint Security, Cloud Computing & IoT Security Infrastructure, Hardware & Network Troubleshooting, Python, MATLAB, JavaScript, Excel, Microsoft 365, SharePoint proficiency, Organizational Risk Assessment, Vulnerability Assessments, Data Privacy & Cybersecurity Compliance, Threat Landscape Analysis, Dashboard Creation & Data Visualization.

Languages - Fluent in English, Basic French.
